# GE Digital Camera — Quick Start Guide

For more information, please refer to the user manual found on the CD included or visit : http://www.ge.com/digitalcameras

## English

### Step 1. Unpacking

Your package should contain the camera model you purchased along with the following items.
If anything is missing or appears to be damaged, please contact your vendor.

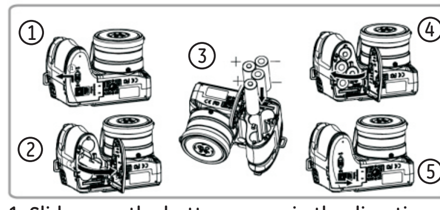

AA-size Alkaline Batteries | CD-ROM | Lens Cap

USB Cable | Shoulder Strap | Warranty Card

### Step 2. Inserting the battery

1. Slide open the battery cover in the direction shown by ① and then lift the cover in direction ② as shown.
2. Insert the battery as shown by ③.
3. Close battery cover and slide it to the right to lock. ④⑤

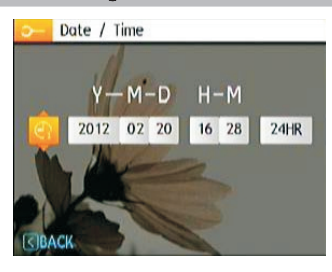

### Step 3. Setting the language

Press power to turn on the camera and the language menu will appear.

Use Up/Down/Left/Right to select a language, then press (func ok) to confirm the language.

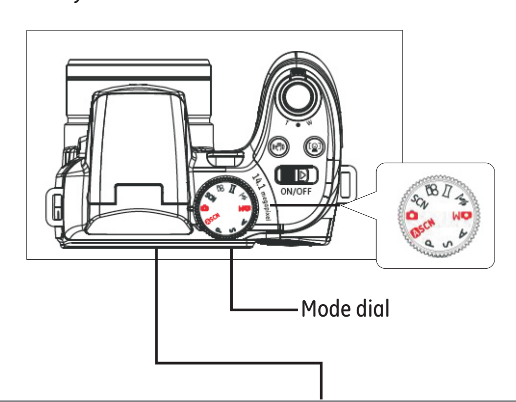

### Step 4. Setting the time and date

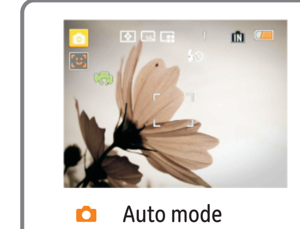

Use Up/Down/Left/Right again to set the date and time, and press (func ok) to confirm.

### Step 5. Using the Mode dial

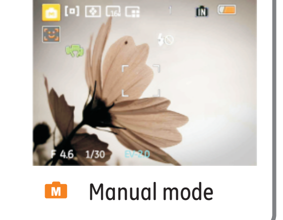

The GE camera provides a convenient mode dial that allows you to switch between different modes with ease.

Mode dial

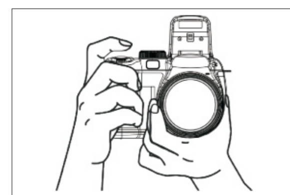

Auto mode

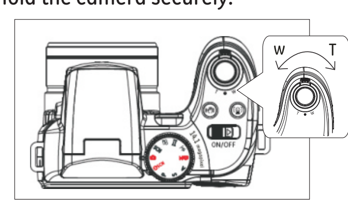

Manual mode

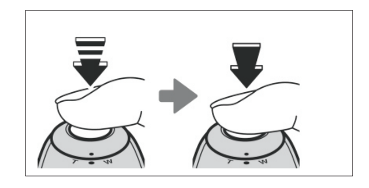

### Step 6. Taking a picture

Hold the camera securely.

Press the Zoom wheel on either the Tele or Wide position of the camera to zoom in or out on your subject while taking pictures.

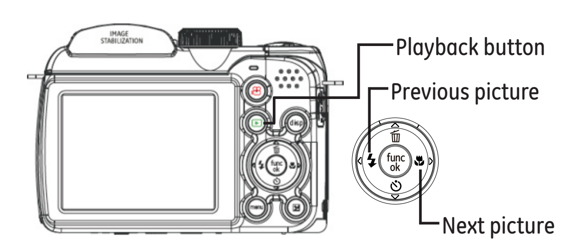

Lightly press the shutter button halfway to focus on the subject then press the button fully to take a picture.

### Step 7. Viewing your picture

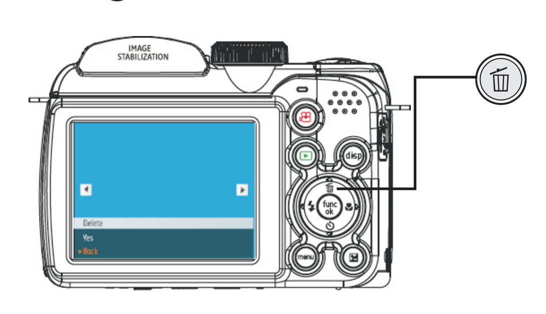

Press the Playback button to switch to Playback mode.

Use Left/Right to browse through your photos.

### Step 8. Deleting a picture

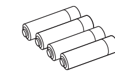

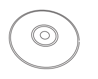

Press (trash) to delete the picture currently on screen.

### étape 1. Déballage

La boîte de l'appareil photo que vous venez d'acheter devrait aussi contenir les éléments suivants. Si l'un des éléments est manquant ou abîmé, contactez votre revendeur.

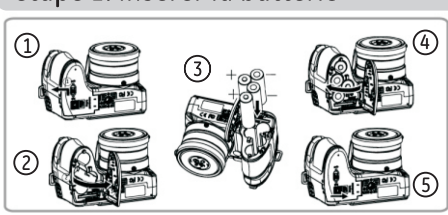

Piles alcalines AA | CD-ROM | Cache-objectif

Câble USB | Courroie d'épaule | Carte de garantie

### étape 2. Insérer la batterie

1. Ouvrez le compartiment de la batterie. ①②
2. Insérez le clos batterie dans le créneau de la batterie Dans la correcte direction. ③
3. Fermez le compartiment de la batterie. ④⑤

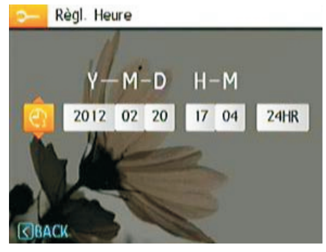

### étape 3. Réglage de la langue

Appuyer sur Power (Marche/arrêt) pour mettre l'appareil sous tension. Le menu Langue apparaît.

Utiliser les flèches vers le haut, vers le bas, à gauche ou à droite pour sélectionner la langue.
Puis appuyer sur (func ok) pour confirmer votre choix.

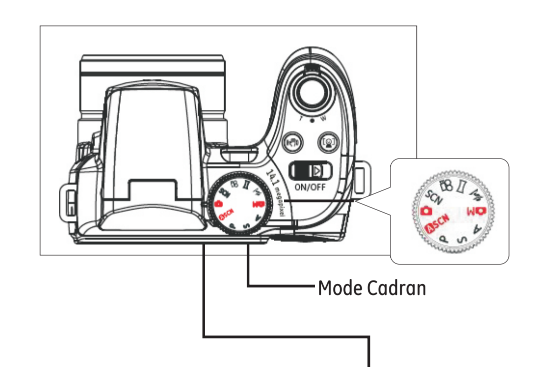

### étape 4. Réglage de l'heure et de la date

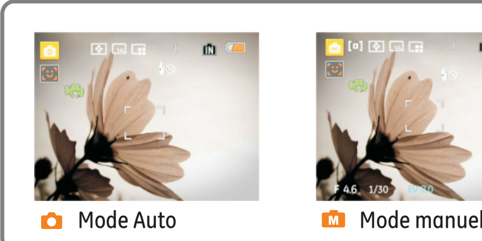

Utiliser à nouveau les flèches vers le haut, vers le bas, vers la gauche ou vers la droite pour régler la date et l'heure.
Appuyer ensuite sur (func ok) pour confirmer.

### étape 5. Utilisation de la molette des modes

L'appareil photo GE est doté d'un sélecteur de commande pratique permettant de commuter entre les différents modes avec facilité.

Mode Cadran

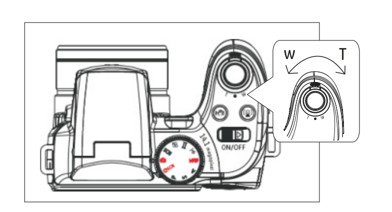

Mode Auto | Mode manuel

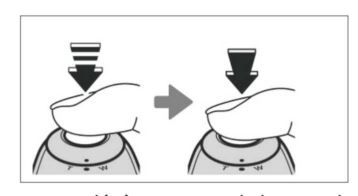

### étape 6. Prendre une photo

Maintenir fermement l'appareil photo.

Composer votre image depuis l'écran LCD.

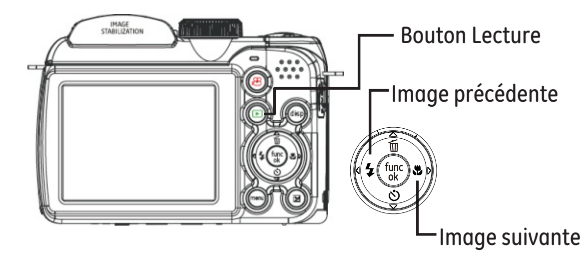

Appuyer légèrement sur le bouton de l'obturateur pour faire la mise au point sur le sujet au centre de l'image, puis appuyer complètement sur le bouton de l'obturateur pour prendre la photo.

### étape 7. Afficher votre image

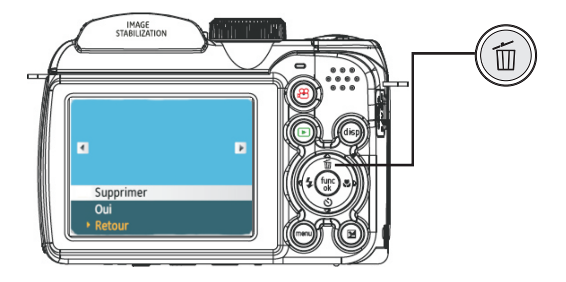

Placer la molette des modes en mode Lecture.

Utiliser les flèches vers la gauche ou vers la droite pour passer d'une photo à une autre.

### étape 8. Suppression d'une image

Appuyer sur (trash) pour supprimer l'image à l'écran.
